In the past year but little has been done beyond the ordinary care of the cemetery, but in the coming year considerable work ought to be done on the grounds, and the fence and hearse house should be painted. Sixty-three dollars and seventy-six cents of the last year's appropriation remains unexpended, and an appropriation of \$150.00 will be required for the coming year.

REPORT OF THE BOARD OF HEALTH.

In accordance with the annual custom, your Board of Health would make the following report: Diphtheria and Scarlatina have been somewhat prevalent in the northern part of the town, in the earlier part of the year, there being some 15 or 20 cases of each. These epidemics were not concomitant with each other but did seem to follow each other in a very short interval of time. Two of the cases of Diphtheria proved fatal but none of the Scarlet Fever cases were fatal; all proved to be of a mild type.

The Diphtheria caused considerable fright among the families in the place as one of the fatal cases developed itself in one of the schools. Your committee was informed of the matter and they immediately closed the school and had the school-room thoroughly disinfected, and those families in which it broke out adopted rigid sanitary measures. The epidemic was cut short; no cases occurred outside of the infected family.

We have had but three cases of Typhoid Fever reported. These originated in one locality of our village and another case was said to have occurred in another town which was supposed to be contracted while living in this part of our village.

The location where these four cases occurred is in great

need of better drainage and it is to be hoped the town will authorize the Selectmen to lay out and construct a suitable drain or sewer for this part of the village.

It is needed not only to protect the people living in this locality but also for the protection of all the people of our town from those dangerous and fatal diseases which are caused by impure surroundings and to preserve our good name as a healthy and attractive village, where the summer tourists can feel safe and contented to enjoy our beautiful scenery and healthful surroundings.

Your Board of Health feel it their duty to bring this subject to the consideration of the town that this need in some way may be supplied and they would suggest the appointment of a committee to ascertain the best way to accomplish the desired result and the probable expense to construct the required sewer.

WALPOLE TOWN LIBRARY.

REPORT OF THE COMMITTEE FOR 1890.

During the past season Ransom L. Ball, who furnished room and for many years was your librarian, died, and the occupancy of the building passed into the possession of Daniel D. Howard, from whom your committee were able to rent a portion of the space before occupied for the library, until more ample room is provided, of which we have a prospect the coming year, through the munificence of Mr. Hudson E. Bridge. After Mr. Ball's decease your committee secured the services of Miss Louisa B. Hayward as librarian, who has given universal satisfaction. The library has been increased 166 volumes and its large circulation shows a continued interest in its success by the citizens of the town, and the visitors that come to us every summer season. List of donors as follows, viz. : Mrs. E. Tobey, Miss Harriet O. Bardwell, Willard Blanchard, William Blanchard, Thomas B. Buffum, Waido F. Hayward, Thomas B. Peck, B. P. Owen, Dwight Durkee, Henry G. Wheelock. To Hon. Henry W. Blair we are specially indebted for a present of 80 volumes U. S. Department Reports, Educational, Agricultural, etc., etc., a valuable lot of books which have not yet been put on the shelves for want of room.

Heretofore the library has been yearly insured for \$2000, an

annual expense of \$30; last June your committee were able to place the same amount of insurance in the Fitchburg Mutual for three years at an expense of \$70; the payment of this amount will account for the deficit in cash account. Among the books purchased the past year were six volumes Riverside edition of Natural History at an expense of \$30.

SCHOOL REPORT

REPORT OF SCHOOL DISTRICT, NO. 1.

The Committee of District No. 1 respectfully submit the following report: We have employed the same corps of teachers as the past year to which has been added Miss L. M. Maynard who has taught music in each department with most gratifying results. In all the rooms the general instruction of the scholars has been of the same intelligent, painstaking, conscientious and comprehensive character as before with results as satisfactory as conditions without as well as within the schools would lead us to expect. The status of the school will always be largely graduated to the character and conditions of the District. The members of the committee whose term began this last year feel they can hardly do better than to repeat the judicious suggestion made by the chairman the year previous: "Your committee believe that in each school study progress has been made and that all scholars who have been constant in attendance have received from their teachers that patient and firm discipline and thorough instruction that should be satisfactory alike to parents and pupils. The indifference of parents in regard to the attendance of their children is a greater hindrance to the success and value of our schools than the inefficiency of teachers. In too many instances, some real or imagined defect in the service of the teacher is a sufficient excuse with the too indulgent parent for depriving children of that school discipline which, though it may not be perfect in every respect, is far preferable to the

idleness and ignorance for which it is exchanged.

A better appreciation of the value of our schools and a more united and friendly striving of parents with teachers to secure for their children industrious habits of good order and study would do much to elevate the character and increase the usefulness of what should be our most cherished institution."

C. R. CROWELL, }

REPORT OF TOWN SCHOOL BOARD.

The town school board begs leave to present the following report: The number of children in the district between the ages of 5 and 15 years, reported by the selectmen in April was 271.

The number of different scholars enrolled in all our schools for the year has been 325. The studies pursued and the number pursuing each has been as follows: Reading and Spelling, 323; Arithmetic, 310; Penmanship, 285; Geography, 249; Grammar, 98; Physiology, 28; History, 21; Book-keeping, 12; Algebra, 7; Civil Government, 5.

The total expense of all the schools for the year of thirty-two weeks has been \$3155.83, or an average of \$9.71 for each scholar. The treasurer's report will show more in detail what the expense of the several schools has been, while the statistical report accompanying this will give the attendance and other facts of general interest, leaving only to be reported here facts concerning the prosperity and management of the schools.

The two primary schools in No. 2, the schools in Nos. 3, 5, 8, and 9 have had each the continuous services of a single teacher for the entire year; the intermediate school in No. 2 and the school in No. 6 have had each two teachers; the grammar school at No. 2 and the school in No. 12 have seen two changes during the year in the teachers employed, while No. 4 alone has been disciplined by four different teachers.

The school in No. 14 had only a spring term, and No. 11 only a winter term; the scholars from those districts attending other schools during the remainder of the year.

No schools have been maintained in Nos. 7, 10, or 13.

The necessity for reducing our yearly expenses in view of the anticipated reduction from last year in the amount of school money (which reduction happily was itself reduced to about eighty dollars by an unexpected increase in the literary fund) induced us to substitute a female for a male teacher in the

grammar school at No. 2, which was not altogether successful. At the end of the fifth week of the winter term she sent in her resignation, stating as a reason that the dissatisfaction with her services had become so general and so positive that to continue longer in the school would be neither politic nor profitable. This is a very hard school and unless a female teacher presents herself who can show that she was born for the place it will be necessary for the present to rely upon a man.

The No. 4 school not having closed cannot be fully reported in our tabulated statement. Notwithstanding the annoying interruptions which occurred in this school at the beginning of the winter term, and the partial failure of one school in No. 2, we have reason to think that the average of our schools has been quite as good as in former years.

During the year there has been paid out for books and school supplies for the town district the sum of \$712.05; bills to the amount of \$86.92 now remain unpaid. It will be impossible to make a very close estimate of the expense in this connection for the coming year but it seems to us that it need not be very heavy. It would be gratifying to see that all scholars who use town books take pains to see that they are kept well covered.
